THE MEETING

When I first met fair Mabel
It was on a meatless day,
While sitting at a table
And eating shredded hay.

Oh, milkless was my coffee
And sugarless her tea.
But we were out to do our bit,
And do it cheerfully.

I shall recall that table
When I am old and gray.
It was a happy meeting
We had on meatless day.

NEW REGULATIONS AS TO DEAL- ERS IN POULTRY AND EGGS EFFECTIVE FEBRUARY, 11

Such dealers—licensees—in poultry
and eggs, shall not, between February
11, 1918, and April 30, 1918, purchase,
ship, sell or negotiate the sale of any
live or freshly killed hens or pullets.
Provided, however, this shall not
prevent the purchase, shipment or
sale between February 11, 1918, and
February 23, 1918, of hens or pullets
which were either killed or shipped
prior to February 11, 1918, to mar-
kets for sale as food.

Provided further, that nothing in
this rule shall prevent the purchase,
shipment or sale of live hens or pul-
lets for egg production purposes.
Cold storage cheese holdings must
be disposed of before new produc-
tion season. To carry cheese into new
season will require permission from
Food Administration based on special
cases presented.

BOOST THE ANNUAL

Secretary Dodds of Chamber of Com-
merce Asks That All Give Finan-
cial Support to High School
Annual.

To The Business Men of Maysville:
The young men and women of the
High School have made application
to us for endorsement of their Annual
as an advertising medium.

We believe that every business man
in Maysville should support the High
School students in this endeavor, not
only from a standpoint of financial
gain to be derived through the ad-
vertising medium, but as a demon-
stration of your interest in their wel-
fare.

This Annual, as high-class advertis-
ing medium, can not be questioned,
for it is distributed to the buying pub-
lic you desire to reach.

In the midst of these war times we
are likely to neglect our attentions to
the youths of the city. This we must
not do. The young folks must be en-
couraged in all worthy endeavors.

Let us give our High School young
men and women all the encourage-
ment we can, so they may grow
strong morally, mentally, socially
physically and financially.

CARL DODDS, Sec.-Mgr.,
Maysville Chamber of Commerce.

ANXIOUS FOR A WORK OF GRACE

Several persons went forward to
take the hands of the ministers last
night at the First Presbyterian
Church at the call "How many of you
will thus signify your deep desire for
a work of grace in this town?" They
were members of several churches.
Mr. Crawford preached on "The
Holy Spirit," from the text, "He Shall
Glorify Me." He showed the depend-
ence of the church on the Holy Spirit,
and how he glorifies Christ in the sal-
vation of souls through the church.

The attendance is increasing and
the earnest appealing manner of the
evangelist is bearing fruit.

SAID TO HAVE VIOLATED MANN ACT

Yesterday's Cincinnati Enquirer
said: Harvey Ducker, Augusta, Ky.,
was arraigned before United States
Commissioner Adler yesterday morn-
ing on a charge of violating the Mann
"white slave" act. He denied guilt
and his preliminary hearing was set
for February 16. In default of bond
for \$2,000 he was committed to the
Hamilton County Jail. He is accused
of bringing a girl, 15 years old, liv-
ing at Aurora, Ind., from Lawrence-
burg to Covington, Ky., on July 28,
1914.

GORGE BREAKS AT CINCINNATI

Word was received here yesterday
afternoon by Captain C. M. Phister
that the Sugar creek gorge, near Cin-
cinnati, had broken. This information
relieved the minds of the local river
men very much as it was known that
as soon as the gorge broke the water
would soon start to falling here.
After reaching a stage of 44.1 feet
here yesterday, the river became sta-
tionary yesterday afternoon at 5:45
o'clock and is now slowly falling. All
danger of a flood are now over, for
the present at least.

TIME TO GET BUSY

Now is a good time to take a
glance over your back yards and de-
vise some plan to ostracize the fruit
cans and rubbish which have been ac-
cumulated since the last installment
was removed. You can generally judge
of the occupants of a house by the
condition in which the front and back
yards are kept. In a general sense
we all pride ourselves on being clean
and tidy.

REPUBLICANS CALLED INTO WAR COUNCIL

President to Begin Series of Confer-
ences With Leaders of Both Par-
ties of House and Senate—
Some Compromise on Plans
for War Cabinet and
Munitions Director
Expected.

Washington, February 12—Presi-
dent Wilson will begin a series of
conferences tomorrow with Congress
leaders—both Republicans and Demo-
crats—on all phases of war legisla-
tion.

For the first time members of both
parties are to be taken into the White
House councils in the consideration of
war legislation, and in this way the
administration expects to smooth out
some of the difficulties which confront
the war program.

The pending bill to empower the
President to consolidate execution de-
partment functions and redistribute
work among them, now openly op-
posed by the Republicans, will be one
of the first subjects to come up. Some
of the Democrats do not favor it, and
the Republicans openly denounce it as
conferring too great authority. The
bill, however, is the administration's
counter-proposal to the Senate Military
Committee bills to create a super-
war cabinet and a director of munitions.

The President is represented as be-
ing unalterably opposed to the com-
mittee plan and many members of
Congress are just as opposed to the
President's plan.

The purpose of the conferences is
to arrive at some compromise on this
subject first, but there is every indi-
cation that they will be carried on
throughout the war.

The President's move is regarded
as the first step toward taking mem-
bers of both parties more into his
confidence and toward calling the
Republicans actively into the war
councils.

LADIES' AID SOCIETY

The Ladies' Aid Society of the
Third Street M. E. Church will meet
this afternoon at 2:30 o'clock at the
church. The members are requested
to bring needles and thimbles. After
the business session the society will
spend the afternoon sewing for the
Red Cross. The Society invites all the
ladies of the church to come and help.

Rev. S. K. Hunt returned Tuesday
from Barboursville, where he closed a
very successful revival Sunday night
in Union College and the church at
that place.

LENTEN SERVICE AT THE EPI- SCOPAL CHURCH

Today is Ash Wednesday, the be-
ginning of the solemn season of
Lent, when the faithful are asked to
come apart from the world in a forty
days season of abstinence, prayer and
penitence. It is above all a season of
refreshing, typified by the awakening
earth after her winter's sleep. We
know how beautiful she is, so by these
methods only can the individual come
forth as the sun.

This afternoon at 4 o'clock the first
service will be held in the church to
which the public is invited. Members
of the congregation especially are
urged to be in their places. Mr. Har-
ry C. Curran will have charge of the
services. The next service will be
Friday afternoon at 4 o'clock and
thereafter each Wednesday and Fri-
day at 4 p. m. until Easter Sunday.

TRUTH IN GERMANY

A leaflet distributed in Berlin and other German cities recently by independent democrats included this striking passage:

"Only by rising en masse, only by a general strike that shall put a stop to all industrial activities and especially the war industry, only by a revolution and by wresting from the hands of tyrants a democratic republic for Germany, can a halt be called to the international butchery and a general peace be brought about.

"Workers! Let us prepare for an immediate, stiff-necked and determined action en masse. This is the only way to end the torments and misery we are suffering.

"The battle cry must be, 'Down with a separate peace!' Delay no longer, German workers, men and women alike, but act, and act with vigor, sparing none. Above all, we must not delay. Now is the time to strike a formidable blow."

The appeal proved effective. It was largely responsible for the outbreak of industrial strikes which threatened the stability of the military rule and for a little while offered hope, to Germans and non-Germans alike, of a peaceful end of the war. The German people showed, for the first time, that they were beginning to understand the true situation in Germany, and with the beginning of comprehension came a determination to rise up in defiance of their masters.

The masters, as it happened, won, and won rather easily. They succeeded in putting down the revolt by the gentle, persuasive methods of the firing squad.

It worked. But it will not work forever. "The truth is mighty, and will prevail." The old evils continue. Prussian arrogance and Hohenzollern autocracy remain what they were. The subject nation sees them in a new light. It is thinking now. It is resenting every display of brute force for their control and subjection. Its resentment festers. There will be another revolt, and perhaps another, and another. Sooner or later there will come a time when the firing squads will no longer fire, because the army will have joined the rebellious workers. That will be the long-awaited revolution.

We only hope it will come before we have to kill another million Germans.

SAVING ICE

When the winter of our discontent is only a frigid memory, our thoughts may turn to ice as they now turn to fuel. Ice is an imperative necessity of modern life, particularly in cities—necessary for the preservation of food, necessary for health and comfort in ways unnumerable—necessary, too, for many processes of manufacture.

Nobody knows what the ice situation will be next summer. The general opinion is that there's likely to be a scarcity, with higher prices than ever. And that in spite of the fact that the greater part of the United States today is suffering from the very excess of Nature's own ice, ready for the harvest, and demanding only cutting and storing.

The trouble is that in recent years most American communities have come to depend on artificial ice. They have let the old, natural, ice store houses fall to ruin and have built hardly any new ones. Because storage facilities are lacking for the present bumper crop, nearly all of it will go to waste. And it is uncertain whether the artificial ice can be produced in proper quantities next summer, because ammonia used in manufacturing it is so much needed in munition work.

Surely a great deal might be done to prevent this lamentable waste. Buildings meant for other purposes might be turned into ice-houses. Where it could be done in time, it might pay to build new storage houses, in view of the double purpose of conserving ice and ammonia both. There ought to be a special satisfaction in saving the ice, because thus we beat Nature at her own game, and turn a curse into a blessing.

SUPPRESSING HOODOOS

The destruction of the Turkish German cruisers Breslau and Goeben was another proof of British persistency. The British navy had been "laying for" those warships ever since they ran to cover in the Dardanelles in the summer of 1914, and were used by the Germans to precipitate Turkey into the war on their side.

The failure to capture them in the first place has always been a bitter pill to the British navy. The bitterness increased with every attack they made on Russian ships in the Black Sea, and with every reverse suffered by the British in the eastern war theater.

It has been said, with a good show of probability, that if the Breslau and Goeben had been nabbed when they fled from Messina, Turkey would not have entered the war against the Allies, Bulgaria would probably have joined the Allies instead of the Central Empires, Greece would have gone over to the Allies with little delay, Serbia would have been saved, Austria-Hungary would have collapsed under pressure from the east and south, Germany would have been left isolated in the second year of the war, and the Allies would have won quickly and easily. Naturally those fated ships were regarded as hoodoos.

Well, the British kept after them; and at last they got them, just as they get about everything they go after, sooner or later.

Their final loss is a mournful omen to the Turks, and the effect will not be lost on that superstitious people.

TO ALL WOMEN WHO ARE ILL

This Woman Recommends Lydia E. Pinkham's Vegetable Compound—Her Personal Experience.

McLean, Neb.—"I want to recommend Lydia E. Pinkham's Vegetable Compound to all women who suffer from any functional disturbance, as it has done me more good than all the doctor's medicine. Since taking it I have a fine healthy baby girl and have gained in health and strength. My husband and I both praise your medicine to all suffering women."—Mrs. JOHN KOPPELMANN, R. No. 1, McLean, Nebraska.

This famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, has been restoring women of America to health for more than forty years and it will well pay any woman who suffers from displacements, inflammation, ulceration, irregularities, backache, headaches, nervousness or "the blues" to give this successful remedy a trial.

For special suggestions in regard to your ailment write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.

NEW PATTERN FOR SWEATER

The Massachusetts Division of the Woman's Committee of the Council of National Defense showed samples of "workless sweaters," ambulance caps, and crutch pads at the monthly conference.

These articles, instead of being knitted, were made of heavy, double-faced elder-down flannel. This material comes in Khaki and gray, is thick, warm, and so closely woven that it keeps out wind better than knitted garments.

The advantage of these garments is not the saving of expense attached, but the saving of time in construction. Twelve women in Wollaston, Mass., working 29 days, recently made 100 sweaters, 17 ambulance pads, and 70 crutch pads from the odd pieces left from the other articles.

The sweater is cut in one piece, joined on the shoulder and under one arm. The slit for the neck is rounded out in front and slightly slashed at two points to give extra room in putting on, and allowing it to fit closely round the neck. The bottom of the sweater is shaped like a man's shirt, only shorter. Instead of taking in a seam the edges are brought together flat and sewn closely back and forth, over and over. The outside edges are finished with coarse button hole stitch. For extra strength around the neck, a row of single crochet is made in button-hole edge.

The ambulance cap consists of a circular top with a straight strip fitted around and joined behind, after the fashion of the silk skull caps sometimes worn by bald-headed men, to which is attached a circular cape. Seams are joined in the manner of the sweater and the edges button-holed. Strings of tape to match are securely attached to the cape, so that the cap may be tied under the chin.

Anyone desiring further information or a pattern may apply to Mrs. William E. Rowe, Winthrop avenue, Wollaston, Mass.

KENTUCKY GETS INTO WAR GARDEN CAMPAIGN FOR 1918 WITH BIG RUSH

Washington—Kentucky is getting into the war garden campaign with a rush reports to the National War Garden Commission show. P. S. Ridsdale, the secretary, is getting many letters from banks, chambers of commerce and boards of trade which show the state is alive to the value of food f. o. b. the Kitchen Door.

A letter was received today, which is typical of these that are coming in. This letter is from Givan Barnes of the Owensboro—Davies County Industrial Club. The club wants 4000 war garden primers for distribution. Secretary Ridsdale says that judging by the letter there will be no slacker land in or around Owensboro this year.

"The various women's clubs are in the campaign too this year" said Secretary Ridsdale. "Last year the National League for Women's Service were particularly active in Kentucky at the direction of Helen Fitz Randolph of Glasgow Junction. The Women's Association of Commerce of the United States of which Florence King, the widely known lawyer of Chicago is the head, is another organization that plans to help plant and win the war."

"Banks, boards of trade and similar organizations realize as never before the value of home food production and there should not be a foot of slacker land any where. Secretary Baker has just urged that no food be wasted by the boys 'over there'. We must not waste any over here and we must break all records this year. It is up to the City Farmer. Will every civic organization see that he gets the right instruction?"

EPIDEMIC USUALLY FOLLOWED WAR

The present is the first great war in history which has not been followed by its attendant disease. During the previous invasion of France 74,205 men in the German field contracted typhoid and gastric fevers, and 5,904 succumbed to them. Moreover, after the seven months of the war of 1870 were over the returning soldiers brought with them an epidemic of smallpox, from which upward of 170,000 died throughout the German empire.

EX-PRESIDENT TAFT ON THE GREAT WAR

In a forceful denunciation of German militarism and an eloquent plea to fight on until a world-peace is made certain and lasting, former President William H. Taft appeared Wednesday in the Y. M. C. A. auditorium at Camp Taylor before thousands of enlisted men and their officers. The speaker painted a complete picture of the historic and diplomatic background of the war, and warned his audience against "specious proposals for peace" that were likely to be most "alluring to the faint-hearted."

Mr. Taft began his tour of the Central Military Department cantonments at Camp Funston under the auspices of the Army Y. M. C. A. having volunteered a month of his time to aid the Y. M. C. A. combined educational and entertainment program in the big army camps. Other addresses will be made by him in Y. M. C. A. auditoriums and huts at Camps Sherman and Custer and at Great Lakes Naval Training Station, near Chicago.

Speaking on the subjects of "The Great War," Mr. Taft said, in part: "The war has not been won. Germany is in possession of Belgium and part of the Northern France. She holds Serbia and Roumania, Poland and the Baltic Provinces of Russia. Peace now, even though it be made on the basis of the restoration of the status quo 'without indemnities and without annexations,' would be a failure to achieve the great purpose for which the Allies have made heartrending sacrifice. Armaments would continue for the next war, and this war would have been fought in vain."

"He who proposes peace now, therefore, either does not see the stake for which the Allies are fighting, or wishes the German military autocracy still to control the destinies of all of us as to peace or war. Those who favor permanent world peace must oppose with might and main the proposals for peace at this juncture in the war, whether made in socialistic councils, in pro-German conferences,

or by Pope Benedict.

"The Allies are fighting for a principle the maintenance of which affects the future of civilization. If they do not achieve it, they have sacrificed the flower of their youth and mortgaged their future for a century. The Allies cannot concede peace until they conquer it. When they do so, it will be permanent. Otherwise they fail."

"Germany alone is responsible for the incalculable destruction of this war. She led on in the armament of the world that she might rule it. She promoted therefore the armament of other nations. Her system was followed, though not as effectively, by other countries in pure defense of their peace and safety."

"Intrigue, dishonesty, cruelty, have characterized the entire military policy of Germany. The rules of international law have been cast to the winds. The murderous submarine has sunk without warning the non-combatant commercial vessels of the enemy and sent their officers, their crews, and their passengers, men, women and children to the bottom without warning."

"Having violated the neutrality of Belgium, having broken its sacred obligations to that country and her people, it is now enslaving them by taking them from Belgium and enforcing their labor in Germany. This is contrary to every rule of international law, and is in defiance of the plainest principles of justice and honor."

"President Wilson says the Allies are fighting to make the world safe for democracy. Some misconception has been created on this head. The Allies are not struggling to force a particular form of government on Germany. If the German people continue to wish an Emporor, it is not the purpose of the Allies to require them to have a republic. Their purpose is to end the military policy and foreign policy of Germany that looks to the maintenance of a military and naval machine, with its hair-trigger preparation for use against her neighbors. If this continues, it will entail on every democratic government the duty of maintaining a similar armament in self-defense, or, what is more likely, the duty will be wholly or partially neglected. Thus the policy of Germany with her purpose and destiny, will threaten every democracy. This is the condition which it is the determined purpose of the Allies, as interpreted by President Wilson, to change."

"How is the change to be effected? By defeating Germany in this war. A defeat of the military machine must open their eyes to the hideous fulfillment of their political course. The German Government will then be changed as its people will have in changed, to avoid the recurrence of such a tragedy."

"But now we are at a danger point. England and France and Russia since 1914 have been fighting the battle of the world and fighting for us of America. The three years or more of war have drained their vitality, strained their credit, exhausted their credit, exhausted their man-power, subjected many of their non-combatants to suffering and destruction, and they have the war weariness which dulls the earlier eager enthusiasm for the principles at stake. Now specious proposals for peace are likely to be most alluring to the faint-hearted, and most powerful in the hands of traitors."

"When the war is won, the United States will wish to be heard as to peace terms. The United States will insist on a just peace, not one of material conquest. It is a moral victory the world should win. I think I do not mistake the current of public sentiment throughout our entire country in saying that our people will favor an international agreement by which the peace brought about through such blood and suffering and destruction and enormous sacrifice shall be preserved by the joint power of the world."

"Meantime, let us hope and pray that all the Allies will reject proposals for settlement and compromise of every nature: that they will adhere rigidly and religiously to the principle that until a victorious result gives security that the world shall not again be drenched in blood through the insanely selfish policy of a military caste ruling a deluded people intoxicated with material success and power, there will be no peace."

INDIGO ONCE VALUABLE SOUTHERN CROP

Some time, about seventy-five years ago, the money crop of Alabama, Mississippi and Georgia was indigo, one of the most highly prized commodities of the present day. That was before the invention of the cotton gin, and nobody is alive now in this country who knows how to grow indigo. But a hundred acres planted to indigo, by a man who knows how to grow it, would at this time bring him in more money than alfalfa, cotton, corn and peanuts combined. Indigo is the main ingredient of some of the high-priced dyes, the scarcity of which is felt all over the world, and which will continue to advance in price long after the war is over. The same soil is here on which it used to grow, only our forefathers found it more profitable to grow cotton, and indigo was left for other countries to grow and thrive upon.

"IN A BAD WAY"

Many a Maysville Reader Will Feel Grateful for This Information.

If your back gives out; Becomes lame, weak or aching; If urinary troubles set in; Perhaps your kidneys are "in a bad way."

Doan's Kidney Pills are for weak kidneys. Local evidence proves their merit.

Mrs. R. W. Lauderback, W. Second Street, says: "Two years ago I was suffering with kidney trouble and had been for a long time. I was nervous and dizzy and had severe headaches. My kidneys were too frequent in action and annoyed me greatly. I had a dull ache across the small of my back and my back was so lame at times that I could hardly bend one way or the other. Some one advised me to use Doan's Kidney Pills and I got a box at Wood & Son's Drug Store. They helped me at once and continued use entirely cured me of the trouble."

Mrs. Lauderback is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that cured Mrs. Lauderback—the remedy backed by home testimony. 60c all stores. Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. Hall's Catarrh Medicine acts thru the blood on the mucous surface of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, etc. F. J. CHENEY & CO., Toledo, O.

Mr. John Clinger of the county is a visitor in this city today.

PEACE NEGOTIATIONS

On a Vast Scale Seen by Diplomats in Series of Addresses by Warring Nations' Spokesmen.

Washington, February 12.—Actual peace negotiations of a new type and on a far greater scale than heretofore known are seen by old school diplomats in the recent series of addresses by spokesmen of the warring nations, outlining terms.

Although President Wilson's latest address to Congress is regarded as a clear reiteration of America's determination to continue to fight until the military masters of Germany are ready to consider peace on the principles of justice, it was pointed out negotiations on a vast scale really are going on.

These "extra-official negotiations," as they are called by diplomats, depart radically from the ancient and accepted practices of diplomacy. Instead of being conducted in the secrecy of round table conference, which was the aim of the central powers in the early stages of the war, the great issues are now being expounded and critically analyzed in the light of publicity and the world's forum.

The President addressed Congress to clear up any confusion resulting from the recent speeches on peace terms by Count von Hertling, the German Chancellor and Count Czernin, the Austrian Premier.

In the address of Count von Hertling the President found no approach to peace, but only a proposal to end the war on German terms. The Austrian Premier, however, the President said, seemed to see the fundamental elements of peace with clear vision, and probably would have gone farther had it not been for Austria's dependence upon Germany.

EPWORTH LEAGUE SOCIAL

The Epworth League of the Third Street M. E. Church will entertain on a Saint Valentine Social this evening at the church. The social department would like for as many as will to come dressed to impersonate some character in history or fiction. A suitable and appropriate reward will be given to the best character. The following program will be given beginning promptly at 7:30 o'clock:

Piano quartet by Misses Georgia Simmons and Mildred Proctor.
Quartet—"Love's Old Sweet Song," Recitation by Miss Mildred Proctor.
Duet by Mr. and Mrs. Carr Dodds.
Reading League's Loquacious Lottery Ledger.
Quartet—"In the Gloaming."
"A Very Pathetic Love Story" by Miss Virginia Mae Hurd.
"Matching Hearts" for refreshments.

Valentine games.
All members and friends of the league and church are cordially invited.

The big plate glass window in the front of the First-Standard Bank building, which cracked several weeks ago, supposedly from the extremely cold weather, is now being replaced by a new one. The big glass is worth several hundred dollars.
